A publication of the Government Statistical Service

Government Statistical Service

A service of statistical information and advice is provided to the Government by specialist staffs employed in the statistics divisions of individual Departments. Statistics are made generally available through their publications and further information and advice on them can be obtained from the Departments concerned.

The source for further information about series published in this volume is shown at the foot of each table. Current telephone numbers of these sources as well as general information about the *Monthly Digest of Statistics* can be obtained from the Central Statistical Office, Great George Street, London SW1P 3AQ. Telephone 01–930 5422 Ext. 602.

Enquiries about orders and subscriptions should be made to the publisher, Her Majesty's Stationery Office, PO Box 569, London SE1 9NH. Telephone 01–928 6977.

MONTHLY DIGEST OF STATISTICS

No. 323

NOVEMBER 1972

This *Digest* has been prepared by the Central Statistical Office in collaboration with the Statistics Divisions of Government Departments.
The name of the department or organisation providing the statistics is shown under each table. Some of the statistics provided by departments are actually collected by other organisations such as nationalised boards and trade associations. The assistance provided by these organisations, too numerous to mention individually, is gratefully acknowledged.
The figures in the *Digest* are mainly totals for calendar months or monthly averages.
Some of the figures included in this *Digest* are provisional only and may be revised in later issues.

Definitions

A Supplement of Definitions and Explanatory Notes, published with the January issue, gives detailed definitions of all the terms and units used in the *Digest*. The following general definitions should be noted in using the *Digest:*

Area covered. Except where otherwise stated, all statistics relate to the United Kingdom of Great Britain and Northern Ireland.

Units of measurement.
Ton = long ton of 2,240 lb.
Tonne = 1,000 kilogrammes.
Gallon = imperial gallon.

Consumption and stocks. The terms 'consumption', 'disposals' and 'stocks' are normally defined in detail in the *Supplement* to the *Digest*. Figures of consumption and stocks are seasonal and should be used with caution. The stocks figures given may often relate to only part of the total stocks in the country.

External trade. Owing to differences in coverage and timing, figures of imports and exports are not always comparable with those for production, consumption and stocks.

Symbols and conventions used

Symbols. The following symbols are used throughout:

.. not available.
— nil or less than half the final digit shown.
* average (or total) of five weeks.

Change of basis. A line drawn across a column between two consecutive figures indicates that the figures above and below the line have been compiled on different bases and are not strictly comparable. In each case a footnote explains the difference.

Rounding of figures. In tables where figures have been rounded to the nearest final digit, there may be an apparent slight discrepancy between the sum of the constituent items and the total as shown.

Central Statistical Office,
Great George Street,
London, SWIP 3AQ

CONTENTS

	Table	Page
I. National income and expenditure		
Expenditure on the gross domestic product	1	4
Factor incomes in the gross national product	2	5
Index numbers of output at constant factor cost	3	6
Personal income, expenditure and saving	4	7
Consumers' expenditure	5	8
Value of physical increase in stocks and work in progress	6	9
Gross domestic fixed capital formation	7	10
Fixed capital expenditure in manufacturing industry	8	12
Fixed capital expenditure in the distributive and service industries	9	13
II. Population and vital statistics		
De facto or home population	10	14
Age distribution of the population	11	14
Births, marriages and deaths registered	12–13	15
III. Labour		
Distribution of working population	14	16
Employees in employment: all industries	15	17
Employees in employment: production industries	16	18
Civil Service: analysis by ministerial responsibilities	17	20
Numbers employed in agriculture	18	21
Constructional work: operatives employed by contractors	19	22
Overtime and short-time worked by operatives in manufacturing industries	20	22
Registered unemployed	21–26	23
Employment vacancies filled and unfilled	27	27
Industrial stoppages	28	28
IV. Social services		
National insurance and family allowances	29	29
Family income supplement and attendance allowance	30	30
Supplementary benefits: pensions and allowances	31	30
National health service	32	31
V. Production, output and costs		
Index of industrial production	33	32
Output per head	34	34
Indices of home costs and labour costs	35	36
Wages and salaries per unit of output in manufacturing industries	36	36
VI. Agriculture and food		
Agricultural land: area and harvest	37	37
Livestock, pigs and poultry on agricultural holdings	38–39	38
Production, disposals and stocks of principal foods and feedingstuffs	40–48	39
Tobacco	49	45
Alcoholic drinks	50	46
Estimated household food expenditure and consumption in Great Britain	51	47
VII. Energy		
Inland energy consumption: primary fuel input	52	50
Production and net arrivals of principal fuels	53	51
Inland energy consumption: heat supplied	54	51
Energy consumption by final users	55	52
Coal supply, consumption and stocks	56–58	53
Gas: sources of supply and sendout	59	55
Generation of electricity	60–61	56
Sales of gas and electricity	62	58
Petroleum and petroleum products	63–67	58
VIII. Chemicals		
Fertilizers	68	61
Sulphur and sulphuric acid	69	62
Synthetic dyestuffs, colours, paint and varnish	70	63
Synthetic resins and plastics materials	71	64
Other miscellaneous products	72	64
IX. Metals, engineering and vehicles		
Iron and steel	73–75	65
Non-ferrous metals	76–77	67
Mechanical and electrical engineering products: deliveries	78	68

		Table	Page
	Mechanical, instrument and electrical engineering industries: deliveries, orders on hand and net new orders	79–83	69
	Electrical products	84–86	74
	Radios, radiograms and television sets	87	76
	Vehicles	88–90	76
	Merchant shipbuilding	91–92	79
X.	**Textiles and other manufactures**		
	Textiles	93– 96	81
	Hosiery and footwear	97– 98	83
	Timber and paper	99–102	84
	Rubber and other manufactures	103–105	87
XI.	**Construction**		
	Industrial building in Great Britain	106	89
	Constructional work: output and new orders	107–108	90
	Permanent housing	109–110	92
	Educational building in Great Britain	111	94
	Building materials and components	112	96
XII.	**Transport**		
	Road and rail transport	113–119	97
	Civil aviation	120	102
	Merchant shipping	121	104
	Passenger movement by sea and air	122–123	104
XIII.	**Retailing and catering**		
	Index numbers of retail sales and stocks in Great Britain]	124	106
	Index numbers of turnover in the catering trades	125	107
XIV.	**External trade**		
	Analysis by commodity classes	126–129	108
	Analysis by areas and countries	130–132	112
	Imports and exports of selected commodities	133–139	118
	Import and export volume and unit value index numbers	140–141	122
	Visible trade: value and volume	142–143	124
XV.	**Overseas finance**		
	Balance of payments	144–146	125
	Official reserves and United Kingdom official short and medium-term borrowing	147	126
XVI.	**Home finance**		
	Consolidated Fund and National Loans Fund	148–149	127
	Central government Net balance	150	128
	Inland Revenue and Customs and Excise duties	151	129
	Bank of England	152	130
	London clearing banks and Scottish clearing banks	153–154	131
	Bank clearings and currency circulation	155	133
	Bank advances	156	134
	Capital issues and redemptions	157	136
	Money stock and domestic credit expansion	158	137
	Reserve and public sector lending ratios	159	137
	Discount market	160	138
	Hire purchase and other instalment credit	161	138
	National savings	162	139
	Security prices and yields	163	140
	Bank rate	164	140
XVII.	**Wages and prices**		
	Average earnings and hours of work of manual workers	165–166	141
	Index of average earnings of all employees	167	142
	Average weekly earnings of manual workers	168	144
	Indices of wages rates and normal hours of work of manual workers	169–170	145
	Changes in basic weekly rates of manual workers	171	147
	General index of retail prices	172–173	148
	Index numbers of wholesale prices	174	150
	Index numbers of agricultural prices	175	152
XVIII.	**Entertainment**		
	Broadcast receiving licences, cinemas and gramophone records	176	153
XIX.	**Weather**		
	Temperature, rainfall and sunshine	177	154
	Alphabetical index		155

I. NATIONAL INCOME AND EXPENDITURE

Expenditure on the gross domestic product

(1) Equals total final expenditure on goods and services at market prices *less* imports of goods and services *less* taxes on expenditure *plus* subsidies. Estimates of the gross domestic product at constant factor cost based on statistics of output are given in Table 3. (2) This represents taxes on expenditure *less* subsidies valued at constant rates.

(1) Road haulage is included with other industries, not with transport.
(2) Covers agriculture, forestry and fishing, construction, road haulage and other service industries.
(3) These figures differ from the totals given in Table 8 because they include an adjustment for the effect of the change in the rate of investment grants; see note on page 108 of *National Income and Expenditure 1972*.
(4) Including from the first quarter of 1972 certain jigs, dies and loose tools (amounting to about £8 million at constant prices).

(1) Including from the first quarter of 1972 certain jigs, dies and loose tools.
Including them in the 4th quarter of 1971 would add £8·4 million at 1963 prices, seasonally adjusted: of this £7·8 million would be in Vehicles, £0·4 million in Engineering, shipbuilding and metal goods and £0·2 million in Other manufacturing industries.

(1) The mid-71 estimates for England and Wales and Northern Ireland are based on the preliminary results of the 1971 Census. They are not comparable with the estimates for the period 1961–70, which were linked to the 1961 and 1966 Censuses.

(2) Figures for Scotland from 1962 have been amended in the light of the results of the 1971 Census.

(1) Between June 1966 and June 1967 the industrial classifications of many establishments in Great Britain were corrected. The estimates for June 1967 take account of these reclassifications and the figures for individual industries are therefore not comparable with those published for previous mid-years. Two sets of estimates are given for June 1966 i.e. (a) excluding the effects of reclassifications (for comparison with earlier estimates) and (b) including the effects of reclassifications (for comparison with subsequent estimates).

(2) Estimates for June 1969(a) are classified according to the Standard Industrial Classification (1958) and are not fully comparable therefore with the estimates for June 1969(b) which are classified on the basis of the Standard Industrial Classification (1968).

(3) The industries included in the index of production are Orders II-XVIII of the Standard Industrial Classification (1958) and Orders II-XXI of the Standard Industrial Classification (1968).

Source: Civil Service Department

(1) The figures include established and unestablished non-industrial and industrial staff but exclude casual or seasonal staff (recruited for periods of normally less than six months) and employees of the Northern Ireland Government. Two part-time employees are counted as one whole-time employee.

(2) The figures prior to 1 July 1972 have been adjusted to show staff in current Ministerial areas so that the figures in all columns are on a comparable basis.

(3) Excluding headquarters staff, but including research and development establishments and Royal Ordnance factories.

Numbers employed in agriculture

(1) Numbers as from June 1970 are not directly comparable with earlier years because in England and Wales:
- (a) they include managerial and clerical workers previously excluded.
- (b) whole time has now been specifically defined as 40 hours or more work per week, and
- (c) junior partners previously returned as regular whole-time male workers are now returned separately as farmers, partners and directors and excluded.

(2) Includes family workers but excludes farmers' wives.

(3) Including regular part-time workers.

Note: Figures after June 1971 have been revised. See footnote (1) to Table 16.

(1) Orders III-XIX of the Standard Industrial Classification 1968.
(2) Figures relate to establishments with more than 10 employees in all manufacturing industries except shipbuilding and ship repairing. (3) Excluding maintenance staff.
(4) From June 1969 it is assumed that operatives stood off by an employer for the whole week have been on short-time for 40 hours each.
(5) In February 1972, the volume of overtime and short-time working was affected by the power crisis.

Note: The figures in this table are adjusted to take into account additions and deletions in respect of the statistical date notified on the Tuesday to Friday following the date of the count. Figures for married females from May 1972 onwards are not adjusted.

(1) Number registered as unemployed expressed as a percentage of the estimated total number of employees.

(2) From 13 November changes have been made in method of calculation of unemployment statistics and the figures are not comparable with earlier figures. *See Department of Employment Gazette*, November 1972.

(1) The total of wholly unemployed is adjusted to take into account additions and deletions in respect of the statistical date notified on the Tuesday to Friday following the date of the count. The analyses by duration from May 1972 onwards are not adjusted. (2) School-leavers are persons under the age of 18 registered as unemployed who have had no insured employment since completing full-time education.

(1) Including ex-service men and women and other registered unemployed persons aged 18 years and over not classified to an industry. Registered unemployed school-leavers (i.e. persons under 18 not in full-time education who have not yet taken up employment), and adult students seeking temporary employment during vacation are excluded. The All industries figures are adjusted to take into account additions and deletions in respect of the statistical date notified on the Tuesday to Friday following the date of the count. All other figures from May 1972 are not so adjusted.

(2) The method of seasonal adjustment is described in an article in the August 1972 issue of the *Department of Employment Gazette*.

(1) Excludes stoppages involving fewer than 10 workers or lasting less than one day except any in which the total number of working days lost exceeded 100. The figures for 1972 are provisional.

(2) From January 1970 the analysis by industries is based on the Standard Industrial Classification 1968. Figures prior to that date are based on the Standard Industrial Classification 1958.

(3) Where stoppages extend over more than one month, the workers involved are counted in the month in which they first participated.

(4) The figures of working days lost relate to the total working days lost within each of the periods shown as a result of stoppages *in progress* in that period, whether the stoppages began in that period or earlier.

(1) Figures for individual months are averages of the four or five weeks ending on the last Tuesday of each month. Invalidity benefit was introduced on 23 September 1971.
(2) Including prescribed industrial disease.
(3) Excluding claims made under the emergency benefit procedure. Figures for individual months are averages of the four or five weeks starting on the first Monday of each month.
(4) These figures include substantial numbers of persons who have been sick for a long time and who may no longer be in employment.
(5) Up to May 1970, these estimates are based on a standing sample of claimants. Subsequent figures are provisional estimates derived from the numbers of new claims and will be replaced later by final estimates from the sample. Yearly figures are averages of twelve monthly figures.
(6) Yearly figures are averages of quarterly figures. Quarterly figures relate to the first Monday in February, May, August and November.
(7) Including pensioners in receipt of Old person's retirement pension awarded under National Insurance Act 1970 and 1971.
(8) Including a diminishing number of widows with pensions of 30s a week derived from the old Contributory Pensions Acts.
(9) Including the elder or eldest child for whom no allowance is payable.
(10) Due to the national postal strike, these estimates have been based on trends shown in the previous five years.

(1) Pension age means 65 years for men and 60 years for women.
(2) Some of the supplementary pensions provide for the requirements of a household with more than one pensioner.
(3) Includes a small number of persons over pension age.
(4) Includes persons required to register for employment but paid by order book.

(1) For a description of this series, see the article on page 360 of the April 1971 issue of *Department of Employment Gazette*.
(2) Quarterly estimates are derived as averages of the monthly figures.
(3) In the absence of an earnings index for February 1972 due to the effects of the coalmining dispute no index of wages and salaries for unit of output has been calculated for that month. Less reliance than usual can be placed on the latter index for January and March 1972.

(1) Excluding agricultural holdings of one acre or less in extent in Great Britain until 1969. With effect from June 1970 the census was extended in Great Britain to cover all holdings with significant output including those on one acre of agricultural land or less, at the same time about 16,000 holdings in Scotland with negligible output were excluded from the census. In Northern Ireland excluding holdings of less than one acre. (2) Excludes Scotland. (3) Includes maize for threshing in England and Wales. (4) Weight in pods. (5) Shelled weight. (6) England and Wales only. (7) Clover and rotation grasses including lucerne in England and Wales. (8) Production figures relate to hay only. The production of hay in England and Wales is calculated from the area cut for hay and actually harvested and does not include the area mown for silage, drying or seed: the production of hay in Scotland and Northern Ireland is calculated from the area cut for hay only and does not include grass mown for silage or drying. (9) Includes hay from lucerne in England and Wales and from permanent grass in Scotland. (10) Includes the total area of deer forest land in Scotland. (11) The fall of 1,031,000 acres between 1969 and 1970 is largely accounted for by exclusion from the census of the 16,000 holdings in Scotland referred to in note(1). (12) These items were included on the England and Wales census form for the first time at June 1969 and the figures for that year are understated. It is estimated that the figures include some 53,000 acres in 1969 and 96,000 in 1970 previously returned as crops and grass or rough grazing.

(1) Based on returns from Potato Marketing Board and Ministry of Agriculture, Northern Ireland.
(2) Disposals (excluding seed and chats) of home grown and imported potatoes for human consumption, processing, export and sales for stockfeed through schemes for implementing the Agriculture Act, 1947. (3) Including sugar used in the manufacture of other foods.
(4) Imported and home produced supplies of refined and raw sugar.
(5) 53 week period (except potatoes). *Five week period.

Note: Estimates for 1972 have been calculated using a revised definition of a person for Survey purposes (see *Supplement of Definitions and Explanatory Notes*) and in consequence are approximately 1·5 per cent lower than they would have been had the former definition been retained: estimates shown above for 1971 have been compiled using the former definition.

Source: Ministry of Agriculture, Fisheries and Food (National Food Survey)

(1) Ascertained or estimated gross income of head of household or of the principal earner if the weekly income of the head is less than £17.

(2) There has been a change in the definition of a pensioner household in 1972 (see *Supplement of Definitions and Explanatory Notes*).

(3) Purchases *plus* free food, including withdrawals from stores of certain home-produced foods.

(1) From January 1971, figures relate to sales by manufacturers in Great Britain employing 25 or more persons, and who are classified to MLH 274 (paint). The figures also include sales of principal products of this industry by establishments classified to MLH 271 (general chemicals) and MLH 494/1 and 2 (toys, games and childrens' carriages).
From third quarter 1971, the figures relate to sales by manufacturers in the United Kingdom.

(1) At steel works and steel foundries. (2) At steel works, steel foundries and blast furnaces.
(3) Stocks at producers' works of ingots, semi-finished and finished steel in terms of ingot equivalent. From March 1970 the figures are revised due to re-measurement,
(4) From January 1971, figures include stock of semi-finished steel for the manufacture of heavy products previously not reported.
(5) The figures for 1970 onwards include deliveries of welded tubes over 16 inch outer diameter.
(6) 53 weeks period. (7) Average of fourteen weeks.
* Average of five weeks.

Amount charged for work done on customers' materials and repair work	101·7	100·8	111·2	25·1	25·3	29·0	29·4	27·3	25·5

(1) Characteristic products of industries in Order VI of the *Standard Industrial Classification 1958*, except ordnance and small arms. Excluding deliveries by the smallest firms which are estimated to be about 2 per cent of the total. In general, spare parts supplied by manufacturers of complete machines are included with these machines, but parts, other than those separately specified, supplied for assembly by makers of complete machines are included in the heading for sub-contract sales and components.

(1) Includes naval vessels registered as merchant ships.
(2) Gross tonnage (100 cubic feet per g.t.) is the total volume of all the enclosed spaces of a vessel.
(3) The total tonnage specified on ordering vessels differs slightly from the total actual measured tonnage on completion.
(4) Vessels are shown for export if they are for other than UK registration.
(5) Modifications include alterations of 500 gross tons or more to the tonnage and the country of registration of vessels already on order.
(6) Modifications and cancellations exceed new orders for the period.

(1) Spinning, doubling processing and waving parts of the cotton industry, *plus* man-made fibre, wool, carpets and hosiery industries. (2) These indices have been adjusted to allow for the differences in the lengths of calendar months but not for holidays or for other seasonal variations. (3) The index numbers for individual sectors relate to the total output of manufacturers whose main business is in that sector of the industry and not output of that particular type of garment.

(1) From the 3rd quarter 1971 information was collected on a slightly different basis; the figures, therefore, are not fully comparable with those for earlier periods. A link between the two sets of figures is shown in the March 1972 edition of *Business Monitor*, P. 9, Carpets.
(2) Prior to the 3rd quarter 1971 these figures relate to woven carpets faced with more than 50 per cent of man-made fibres.
(3) Prior to the 3rd quarter 1971 export figures are those reported directly by manufacturers. From that date they are those recorded in the *Overseas Trade Statistics*.

4th quarter	9·4	1·4	0·6	1·2	0·5	0·8	0·7	1·2	1·4	0·9	1·0	3·8

(1) The figures relate to schemes of 10,000 sq. ft. and over. (2) For all projects (new buildings, extensions to existing premises and buildings converted to industrial use) for which industrial development certificates were issued. (3) These regions take in the places designated as Development areas under the Industrial Development Act, 1966: the aggregate figures for the Development areas are shown separately. (4) For manufacturing industry only (new buildings and extensions to existing premises). The definition of floor area approved was extended in August 1966 and this is increasingly reflected in completion in the following years.

(1) Excluding building which is wholly financed from private sources. (2) From January 1960 for Scotland and from April 1960 for England and Wales the cost of school meals projects has not been separately recorded. The value of such projects, shown separately for the years 1946 to 1959 in previous tables of educational building, has been included as appropriate under the headings Primary and secondary and Special schools. (3) Figures for England and Wales include the value of projects for which specific approval is not required. (4) Totals for England and Wales include the value of certain projects for which no analysis between type of project is available. As from October 1961, the individual value of such projects is less than £2,000. (5) Figures for England and Wales relate to project values and those for Scotland to contract values. Figures for Scotland include the cost of certain minor projects for which specific approval is not required. (6) The Scottish figures of projects approved refer to approval at the sketch plan stage, which might be some six to twelve months before the start of construction. (7) The Scottish figures of Under construction and Completions are based on the tender costs. The Under construction and Completions figures exclude the value of approved school projects which in 1969 amounted to £1,246,000 and £406,000 respectively.

(1) The method of calculation of the number of new places provided differs in England and Wales and Scotland. In England and Wales the figures refer to the number of pupils for which new school accommodation is designed. In Scotland the figures refer to the sum of the approved capacities of all the teaching rooms whether classrooms or practical rooms, and will normally exceed the number of pupils for which accommodation is designed.

(2) Including new schools brought into partial use before completion.

(3) Extensions, alterations, remodelling and war damage repairs.

(1) Including pedestrian controlled delivery vans. (2) Includes general, agricultural and showmen's goods vehicles, also general haulage and showmen's tractors. (3) Excludes vehicles operated by the Post Office since 1 October 1969. (4) Licences current at any time during the September quarter. The figures are collected on a sample basis. (5) Includes cars and motor cycles individually exported by users. (6) Quarterly estimates based on licence issues and refunds.

(1) The annual figures for road transport are estimated from periodic sample enquiries and traffic counts data. These have been revised in the light of results from the 1967/8 survey of road goods transport. From 1970 a continuing sample enquiry has allowed quarterly estimates to be made. (2) The quarterly figures relate to 13 week periods and not to three calendar months. (3) Not over 30 cwt. unladen weight. (4) Includes vehicles with drawbar trailers.

(1) Passenger journey figures for 1969 and subsequently are no longer strictly comparable with those for previous years, due to the transfer from British Rail to London Transport railways of the Bow to Upminster line on 1 January 1969 and of the London Paddington to Westbourne Park service on 1 January 1970. In addition the new 14 mile Victoria Line has been opened to traffic by London Transport in four stages on 1 September and 1 December 1968, 7 March 1969 and 23 July 1971. (2) The four-weekly averages for each year are computed from calendar year totals.

(1) The four-weekly averages for each year are computed from calendar year totals.
(2) Freight train traffic only.
(3) From January 1969, figures do not include freight carried on behalf of National Carriers Ltd. and Freightliners Ltd.
(4) From January 1972, four-weekly figures of net ton mileage are estimated.

(1) The retail sales series are now rebased on the final results of the Census of Distribution for 1966.
(2) The indices for all shops, food shops and total non-food shops are shown to the first decimal place to help interpretation, but should not be regarded as necessarily accurate to the final digit.
(3) Including co-operative societies' bakery departments. (4) Excluding co-operative societies' bakery departments. (5) Sales by co-operative societies of durable goods and ironmongery and hardware are included in total sales by durable goods shops. (6) Including radio and cycle and perambulator shops. *Average of five weeks.

(1) Statistics of visible trade on a balance of payments basis are obtained by making certain adjustments in respect of valuation and coverage to the statistics recorded in the *Overseas Trade Statistics*. These adjustments are summarised in Table 143 below; they are described in detail in *United Kingdom Balance of Payments 1972*.

(2) Export unit value index as a percentage of the import unit value index. (3) Provisional.

(1) Figures are calculated to end-September 1967 at $2.80=£1, from end-December 1967 to end-September 1971 at $2.40=£1 and from end-December 1971 at $2.6057=£1. (2) Drawings from the IMF, net of repayments by the United Kingdom and drawings of sterling from the IMF by other countries, but excluding accumulated charges in sterling. (3) Borrowing from Switzerland, with a sterling counterpart, in parallel with drawings from the IMF under the General Arrangements to Borrow. (4) Borrowing from other monetary authorities and a consortium of Swiss banks in 1967, in the form of foreign currency deposits or assistance with a sterling counterpart. (5) From end-July 1972, the official reserves were redefined to include the reserve positions in the IMF. From end-April to end-June 1972, this stood at £292 million.

(1) In addition to its lending, the National Loans Fund meets the interest and management charges of the National Debt. To the extent that these charges are not matched by interest received on its own lending and by profits of the Issue Department of the Bank of England, the Consolidated Fund meets the difference. The surplus on the Consolidated Fund is paid to the Fund, leaving the difference between that and its net lending as the Fund's financing requirement. (2) Loans under the Ship Credit Scheme and to the Shipbuilding Industry Board, housing associations and building societies. (3) Loans to Votes for US military aircraft, Town and Country Planning compensation. Redundancy Fund and lending to Northern Ireland Exchequer.

(1) This is equal to Exchequer borrowing and special transactions (net) *less* receipts from extra-Exchequer funds, etc. It is also equal to the amount the central government borrows *less* any increase (or *plus* any decrease) in its official reserves.
(2) A negative item represents a surplus, a positive item a deficit.
(3) Including in March of each year transfer of surplus of the death duties surrendered securities account.
(4) The cumulative monthly figures do not agree precisely with the quarterly figures because of adjustments, incorporated in the latter, for accrued interest on National Savings and for issued coin. Monthly figures before April 1971 exclude N. Ireland central government debt.
(5) Excluding borrowing from the National Loans Fund.
(6) Including surrender of final balance on the local loans fund.
(7) Adjustment for redemption of government guaranteed stock.
(8) Consolidated Fund liability for service of the National Debt: balance carried over until March.

(1) Including government debt £11·0 million.
(2) Other securities, coin and until 6 August 1970, gold coin and bullion.
(3) Including Capital £14·6 million.
(4) Deposits called from the London clearing and Scottish banks, and not at their free disposal.
(5) Before 18 August 1971 Other accounts and rest.
(6) Certain changes in the composition of these accounts were made from 28 February 1971 reflecting certain changes in the treatment of reserves. Following the publication, on 28 July 1971 of the Bank's Report and Accounts certain other minor changes were made mainly affecting the titles of accounts. See footnotes (5), (7), (8) and (9). For full details see the Additional Notes to Table 5 in the *Bank of England Quarterly Bulletin*.
(7) Before 18 August 1971 Discounts and advances. (8) Before 18 August 1971 other securities.
(9) With effect from 29 July 1971 Treasury bills discounted for customers were incorporated in Government securites instead of in Discounts and advances.

December 13 ...													

(1) Figures supplied by the Bank of England and rounded to the nearest £5 million, but from mid-September 1971 the clearing banks began to widen the scope of their business and thus made the application of seasonal adjustments based on earlier figures inappropriate.

(2) Total deposits *less* (i) balances with, and cheques in course of collection on, other banks in the United Kingdom and the Republic of Ireland and (ii) items in transit between offices of the same bank.

(3) Comprising (i) Coin, notes and balances with Bank of England, etc. (excluding special deposits), (ii) Money at call and short notice; (iii) Bills discounted, which include re-financeable export credits.

(4) Excluding items in transit.

(5) Excluding advances to nationalised industries (including, from 28 July 1967, the British Steel Corporation).

(6) Some changes have been made in the accounting procedures of the clearing banks. Changes in the treatment of transit items at mid-January 1970 are estimated to have reduced London clearing banks' gross deposits by about £350 million. From January 1970, inner reserves and sundry provisions were transferred from gross deposits: this reduced gross deposits by some £500 million and affects the ratios. From January 1970, the investment figures are affected by the revaluation of investments following full disclosures of profits. This produced an upward revision of some £75 million.

(7) Reserve assets as a percentage of eligible liabilities.

(8) At mid-May 1972 the London clearing banks transferred £670 million fixed rate credit for exports and shipbuilding and short-term export finances from Sterling bills discounted to Advances.

(1) Total deposits *less* items in transit between offices of the same bank.
(2) Comprising (i) Coin, notes and balances with Bank of England (excluding special deposits); (ii) Balances with other banks etc.; (iii) Money at call and short notice; (iv) Bills discounted.
(3) Liquid assets include, and Advances exclude, re-financeable export credits.
(4) Deposits called under the Special Deposits Scheme and not at the banks' free disposal.
(5) With effect from 16 September 1971, percentage of eligible liabilities.
(6) Some changes have been made in the accounting procedures of the Scottish banks. Changes in the treatment of transit items at mid-January 1970 are estimated to have reduced Scottish banks' gross deposits by over £60 million. From January 1970, inner reserves and sundry provisions were transferred from gross deposits: this reduced gross deposits by some £45 million for the Scottish banks and affected the ratios. From January 1970 the investment figures are affected by the revaluation of investments following full disclosure of profits. This produced an upward revision of some £5 million.
(7) Reserve assets as a percentage of eligible liabilities.
(8) At mid-May 1972 the Scottish clearing banks transferred £37 million fixed rate credit for exports and shipbuilding from Sterling bills discounted to Advances.

(1) Figures are not strictly comparable throughout owing to changes in the composition of the clearings. From 12 January 1968 provincial clearings, with the exception of the afternoon clearing at Liverpool, were abolished and transferred to General clearing. From 1 July 1969 all figures are worked on a 5 day week.

(2) Average of Wednesdays. Includes Bank of England notes held by the Scottish and Northern Ireland Banks as cover for their note issues in excess of the authorised circulation.

(3) Months: average of Saturdays in the consecutive four-week periods as published in *The London Gazette* or in *The Belfast Gazette*, with as close a correspondence as possible to the calendar months. Years: average of the thirteen published figures.

(4) Excluding coin in the Bank of England, Issue Department.

(5) Total notes and coin outstanding, *less* notes and coin held by the Bank of England, Banking Department, and by the London clearing banks, Scottish banks and Northern Ireland banks.

(6) The values of Town, General and Credit clearings were reduced as a result of mergers among the London clearing banks. The changes occurred in December 1969 and January 1970 and to a lesser extent in September 1970; their total effect is estimated to have been: Town clearing —8%, General clearing —10%, Credit clearing —11%.

(7) From 20 January until 8 March the figures are affected by a strike of Post Office employees.

(1) The annual figures are averages of the figures for February, May, August and November.
(2) Included in Other manufacturing in Northern Ireland.
(3) Excluding funds placed through the specialised financial markets.
(4) The break line in May 1972 indicates figures before and after the inclusion of £734 million fixed rate credits for exports and domestic shipbuilding (London clearing banks £697 million, Scottish clearing banks £37 million) previously included in Bills discounted.

(5) Because of difficulties of classification it is not possible to include advances made by the five finance recognised or confirmed as banks in January 1972. These totalled £1,070 at mid-May and £1,154 at mid-August.

(6) Figures for May, August and November 1970 are not available due to the effects of an industrial dispute involving bank employees.

(1) Excluding securities of the British government and nationalised industries.
(2) The figures have been revised to exclude estimates of the subscriptions arranged by United Kingdom sponsors to international issues.
(3) The estimates include United Kingdom local authority negotiable bonds (of not less than one year) issued to or through the agency of banks, discount houses, issuing houses or brokers.

(1) Including for the first time, figures for five finance houses recognised or confirmed as banks in January 1972. At 15 March these institutions had £950 million of eligible liabilities and £81 million of reserve assets. Some were granted a short period in which to achieve the 12½ per cent minimum reserve ratio.

(2) The figures are affected by some of the banking recognitions mentioned in footnote (1) above.

(1) Derived from yield-maturity curves fitted by computer; an outline of the method used was given in the *Bank of England Quarterly Bulletin* for March 1967. Taxes are ignored. The yearly figures are averages of end-month yields. The monthly figures are averages of Wednesdays.
(2) Average of working days, based on the mean of the middle opening and middle closing prices each day, excluding gross accrued interest; tax is ignored.
(3) Averages of daily figures calculated from middle market closing prices.
(4) Gross redemption yields of 15 stocks so combined as to give a yield average for a constant 20-year term.

November 23	7			1972 June 22 to October 12	6

(1) With effect from 13 October 1972 the Banks' minimum lending rate to the market will normally be one half per cent higher than the average rate of discount for Treasury bills established at the most recent tender, rounded to the nearest one quarter per cent above. The rate for 13 October was 7¼ per cent and for 27 October was 7½ per cent.

(1) The figures represent the average earnings, including bonus, overtime, etc., and before deduction of income tax or insurance contributions, in one week in the months indicated. Administrative and clerical workers and other salaried persons have been excluded. Certain qualifications are given in a full account of the enquiry relating to October 1971, published in the *Department of Employment Gazette* for February 1972.

(2) From and including October 1967 includes (a) dock workers previously on daily or half daily engagements and (b) postmen.

(3) This index relates only to the industries covered by the earnings enquiry. It should not be confused with the figures in Table 170 which cover all industries.

(1) England and Wales only. (2) Except sea transport and postal services. (3) Consisting of laundries and dry cleaning, motor repairers and garages and the repair of boots and shoes. (4) For notes on the index classified according to Standard Industrial Classification 1968 see pages 470–471 of the *Employment and Productivity Gazette* for May 1970. (5) Because of the coal mining dispute a reliable index for Mining and quarrying cannot be calculated. The December 1971 figures for coal mining have been used in the compilation of the index for All industries and services covered.

(6) As industrial activity was severely disrupted by restricted electricity supplies the monthly survey was not carried out in February so figures cannot be calculated for this month. (7) Provisional. (8) Insufficient information is available to enable a reliable index for Agriculture to be calculated for the current month but the best possible estimate has been used in the compilation of the index for All industries and services covered.

(1) The figures are based upon changes in basic rates of wages or minimum entitlements and reductions in normal weekly hours, which are normally determined by national collective agreements or statutory wages regulation orders. The information relates to the end of the month and, where necessary, the figures may be revised to take account of any changes having retrospective effect or reported belatedly. A brief note on the method of compilation of the figures is given in the current issue of the *Department of Employment Gazette*.

(2) In general, males under 21 and females under 18 years of age.

(3) The term Manufacturing industries covers all industries included in Orders III–XIX of the *Standard Industrial Classification 1968*.

(1) The figures relate to changes in basic full-time weekly rates of wages or minimum entitlements and do not reflect reductions in normal weekly hours without loss of pay or variations in actual earnings arising from such factors as overtime or lost time. The changes included are those determined by national collective agreements or by statutory wages councils or boards.

(2) The monthly totals in the columns headed Increase and Decrease relate to the number of workpeople affected by changes and the corresponding gross amounts. Workpeople affected by two or more changes are counted only once in the annual totals which relate to the number having increases only or for whom increases exceeded decreases, the number having decreases only or for whom decreases exceeded increases, and the corresponding net amounts; the column headed Net increase, is therefore the overall net increase for the year.

(3) The annual totals of net increases in basic weekly rates of wages mean that the total wage bill of the country, in the industries and for the workpeople covered by the statistics, for a full ordinary week's work at basic rates of wages at the end of any one year exceeds that for the corresponding week of the preceding year by the amount stated. The average weekly wages paid during any one year will not, however, exceed those paid during the preceding year by this sum, as the actual changes will have taken place at various dates during the year.

November 21												
December 19												

(1) The Cost of Living Advisory Committee recommended in 1962 that until a satisfactory index series based on actual prices became available half the expenditure on meals out should continue to be allocated to the food group and the other half spread proportionately over all groups, including the food group. The index for meals out for 16 January 1968 implicit in this recommendation was 121·4. Since January 1968 an index series based on actual prices has been available and indices in this series have been linked with the implicit index for meals out for 16 January 1968, to obtain indices for meals out with 16 January 1962 taken as 100.

(2) These are the weights which would have been used in 1968 if expenditure on meals out had been treated as in previous years (see footnote (1)). The weights actually used are given in the following line.

November															
December															

(1) From July 1971, revised method of calculation to include levies on certain imported food materials.

(2) Index of building costs: figures relate to average for the quarter.

(3) The index covers only dwellings on which building societies have advanced mortgages during the period. The cost of land is included.

(4) Provisional.

(1) Based on manufacturers' list prices.
(2) The market-price series are based on prices before the addition of subsidies paid to producers under the Cereals Deficiency Payments Scheme and Fatstock Guarantee Scheme.
(3) The gross-price series for wheat, cattle and pigs are based on prices after the addition of subsidies paid to producers; that for milk on prices paid to producers by the marketing board and that for potatoes on producer prices, sometimes supported by the Potato Marketing Board.
(4) Figures to June 1972 have been adjusted to final deficiency payments. (5) Maincrop potatoes only.
(6) Based on guaranteed minimum prices to producers at packing station until March 1966, then to March 1970 on BEMB prices to producers under the Egg Contract Schemes. From April 1970 until March 1971 minimum producers prices as in years prior to March 1966. Thereafter based on average price paid to producers at packing stations. (7) Based on net prices to farmers after deduction of subsidy. (8) Provisional.

CENTRAL STATISTICAL OFFICE

SOCIAL TRENDS
No. 3 1972

The third edition of the Central Statistical Office's annual compendium of social and environmental statistics is on sale now. The publication has been revised as compared to previous issues and over a quarter of the tables in it are new.

One of the new features in this issue is a commentary on trends and developments in British society over the last decade which helps to bring into focus and interpret some of the main tables and charts.

Altogether *Social Trends No. 3* has 175 tables and over 80 charts and maps—mostly printed in two colours. Separate sections cover population, employment, leisure, personal income and wealth, personal expenditure, health and personal social services, education, housing, environment, justice and law, public expenditure and manpower. A final section provides comparative statistics from the EEC, the applicant countries and certain other developed countries on selected aspects of social conditions. The tables are supported by notes and definitions and by a comprehensive list of references for further research.

One of the articles, by members of the Liverpool City Planning Department, shows how small area data, drawn from a variety of administrative sources, can be used to throw light on social malaise in a particular locality. Other articles deal with immigration statistics, with manpower planning in Scottish secondary education and with crimes of violence against the person.
